

Bluebell CLASS - TERM 6

Welcome to Term 6. We hope you had a lovely break and come back refreshed. In Maths, we are looking at Properties of shape, position and direction and statistics. Year 4 will be revising times tables up to 12 x 12 in preparation for their Multiplication Tables Check (MTC).

In English, we will be using the beautiful book *One Wish* by M O Yuksel to write our additional scene about Fatima leaving home and going to Morocco. For our non-fiction, we will write a non-chronological report about the world's first university.

Our wonderful afternoon topic is *Incredible Invaders*. I am so excited to get stuck into the Vikings and Romans. We will learn all about the fantastic history of the changing English culture. In science, we will be learning about rocks and fossils. We will have printing as our Art topic, learning about designing Viking shields.

In PSHE, we will learn about changing me. Please look at our letters involving this topic if you have any questions and get in touch if you would like any information about what we will be covering. Our computing topic delves into scratch and programming as we look to programme computer activities.

PE days will be Tuesday and Friday for Y4 and Thursday and Friday for Y3.

Homework: please continue to support your child to read x 4 weekly, practise their personalised spellings x 3 weekly, keep in the green zone in Doodle and practise their Times Tables (not just the Year 4s; we've noticed Year 5 still need regular practice). We check homework Monday and Fridays and children must catch up if not completed.

Please check PE kits still fit, including trainers, and ensure that short/skorts are in the bags in case of warmer weather (!). Please label EVERYTHING that comes into school as the children often struggle to tell clothing apart.

Any queries, questions, or concerns, please come and speak to us on the playground or send me an email. Have a great break!

Thank you and enjoy your half term!

Mr Marron
